

## Do It Yourself Online Workshop STOW Element 10: Crisis & Emergency Management

This course is designed for persons with responsibility for the implementation of the STOW TT Minimum HSE Management System (HSEMS) requirements and covers the requirements for STOW Element ten: Crisis & Emergency Management. Participants will gain the necessary skills required to implement the requirements of this element through activity-based learning with coaching, case studies, group activities and open forum discussions.

Course Objectives:

At the end of the course, participants will be able to:

- Understand and interpret the requirements for STOW Element 10 as it relates to their company
- Understand the requirements for Element 10 such as identifying foreseeable emergency scenarios & the consequences associated with these scenarios, developing and communicating emergency response plans, identifying required emergency response resources, and inspecting / testing these resources, training requirements for persons with emergency response roles, conducting emergency response drills and identifying corrective actions
- Implement the required policies, procedures and other documentation

Who Should Attend:

Anyone who is required to implement STOW requirements on behalf of their organisations.
