

NSC Defensive Driving Training

OVERVIEW

This programme is geared to teach drivers how to focus to recognize hazards associated with motor vehicle collisions and traffic violations. It sets the groundwork for both young and experienced drivers to enhance their driving skills, thus preparing them to become a “defensive driver”. This course certification is accredited by the **National Safety Council (NSC)**, USA. It is strongly recommended both for inexperienced drivers, as well as companies and businesses for their employees.

Having individuals and employees exposed to defensive driving training would not only provide them with the skills and techniques to keep them safe on the road but should also result in decreased maintenance and insurance costs.

Enrolment pre-requisite:

- ✓ Must be at least seventeen (17) years old
- ✓ Must be the current holder of a valid driver's permit/license.

WORKSHOP STRUCTURE

Defensive Driving Workshop comprises of the following modules which will be delivered in one (1) day:

- ✓ Defensive driving strategies and incidence avoidance.
- ✓ Basic Traffic Law and procedures.
- ✓ Safe driving practices in different environments, and the challenges of driving in severe weather and other extreme conditions.
- ✓ The use of protective equipment to minimize injuries and accidents.

FACILITATOR'S BACKGROUND

Mr. Kenny Mohammed

Kenny Mohammed is the Managing Director of KELEMARC Sales & Consultancy Services Ltd. Kenny has over twenty-five (25) years' experience in the upstream & downstream industries.
